Treasurer

PD Dr. med. Andor Simon
Committee Member

Dr. Anastasia Theodoridou
Committee Member

PHARMACEUTICAL COMPANIES
OF Johnson & Johnson

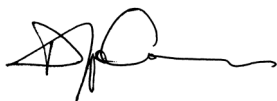

Dear Colleagues,

The SWEPP committee is happy to invite you to this year's symposium which will be held on **June 21st 2012, from 13:00 to 17:30, at the University of Bern.**

After focusing on Swiss early intervention initiatives in the last 2 years (early intervention programs in 2010 and detection of at risk mental states in 2011), this year's symposium will involve international speakers. They will discuss 4 complementary clinical aspects of intervention in first-episode psychosis patients, as detailed in the following program:

- 13:00 - 13:15: Prof. Philippe Conus : Welcome and introduction
- 13:15 - 14:00: **Prof. Paul Hoff (University of Zurich)**
How do we define a first episode of psychosis?
- 14:00 - 14:45: **Prof. Lex Wunderink (Leeuwarden, Netherlands)**
Maintenance treatment after a first episode of psychosis
- 14:45 - 15:15: Coffee break
- 15:15 - 16:00: **Prof. Jan Scott (Newcastle, UK)**
Psychological treatment in first episode of affective psychosis
- 16:00 - 16:45: **Dr Barnaby Major (EQUIP, London, UK)**
Specialized vocational intervention after a first episode of psychosis
- 17:00 - 17:30: SWEPP Annual General Assembly

The symposium will be held in English without simultaneous translation. Please reserve the afternoon in your diary, and we look forward to meeting you there!

President
SWEPP Committee
